

Arkema Inc. Calvert City Plant Quality Policy

We at the Calvert City plant are committed to our Customers, Employees, Communities, and Owners and to be continually improving the effectiveness of the Quality Management System. Key performance indicators are used to monitor system progress, efficiency, and effectiveness.

To our Customers, we are committed to their satisfaction and are driven by understanding and communicating their requirements throughout our organization. We recognize that our products may be used for food processing applications and commit to producing products under an effective HACCP plan that meets FCC standards.

To our Employees, our key asset, we are committed to providing a safe workplace, and providing the resources to accomplish their responsibilities safely and to grow professionally.

To our Communities, we are committed to be responsible members as we operate our facility in a safe and environmentally sound manner.

To our Owners, we are committed to growth and to increased profitability.
