

The Cary, NC Research and Development Center provides strategic direction and innovative research in support of the Arkema Coating Resins (ACR) business unit. Support services for the business center include finance, human resources, engineering, supply chain, health, environment and safety, as well as sales and marketing specialists.

The ACR manufacturing sites throughout the world produce synthetic latex-based emulsions and plastic additives. Production encompasses a wide range of low-VOC (volatile organic compounds) resin technologies, including waterborne, high solids and powder resins as well as solvent-borne resins and high performance coating additives for formulators of architectural coatings, industrial finishes, construction products, traffic paints, sealants, adhesives, inks, floor care and graphic arts products.

Community involvement

- ✦ MacGregor Industrial Park Association - We are a member working with several dozen other companies in the area to address emergency response issues
- ✦ Habitat for Humanity® of Wake County
- ✦ AFHS Academy of Engineering & Advanced Manufacturing Student Job Shadowing
- ✦ Food Bank of Central and Eastern NC - 916 pounds of food collected and donated in 2018
- ✦ Sponsor for the American Heart Association Go Red Women's Luncheon

Investment in health, environment and safety

- ✦ Installed new ramp at loading dock to follow OSHA recommended angle of inclination
- ✦ Site utilizes a Behavioral Based Safety program where all employees are required to make formal observations of onsite activities to improve safety performance

\$12.4 million in local impact
(includes payroll/utility/property taxes)

\$59,000 in approved capital investments in 2018 for health, environment and safety

85 employees

14.5 years without a recordable injury

Certifications

ISO 9001:2015, AIMS, recognized by the American Coatings Association for our safety record

About Arkema

A designer of materials and innovative solutions, Arkema shapes materials and creates new uses that accelerate customer performance. Our balanced business portfolio spans high-performance materials, industrial specialties and coating solutions. Our globally recognized brands are ranked among the leaders in the markets we serve. Reporting annual sales of €8.8 billion (\$10.4 billion USD) in 2018, we employ approximately 20,000 people worldwide and operate in close to 55 countries. We are committed to active engagement with all our stakeholders. Our research centers in North America, France and Asia concentrate on advances in bio-based products, new energies, water management, electronic solutions, lightweight materials and design, home efficiency and insulation. www.arkema.com
