King of Prussia, Pennsylvania, is home to Arkema’s U.S. headquarters and main research and development location. Innovation is the hallmark of Arkema Inc. researchers and scientists. We develop state-of-the-art specialty chemicals and polymers that provide customers with practical solutions to the challenges and opportunities they face.

As a company, Arkema is committed to developing solutions today for tomorrow’s societal needs. We have established six priorities for our R&D focus:

- Water management
- Lightweight materials and design
- Bio-based products
- New energies
- Electronic solutions
- Home efficiency and insulation

Arkema is committed to excellence, the pursuit of safety and environmental protection, optimized performance and best-case competitiveness.

Community Involvement

- Science Teacher Program - Arkema Inc.’s Science Teacher Program provides hands-on training to hundreds of teachers nationwide. In King of Prussia, we host 14 teachers, providing them with science activities to help students understand scientific principles and help excite them about science.
- Cristo Rey High School Work / Study Program – The Cristo Rey Philadelphia High School provides four students with real life experience. The students work once a week at the site from September through June. They are assigned duties in office services, talent acquisition, talent management and marketing. Cristo Rey is an independent, college preparatory Catholic school for under-represented urban students, giving skills to succeed in college and the modern workplace.
- United Way®
  - Employee donations to local soup kitchen
  - Valley Forge Freedom from Hunger Food Drive
  - Co-sponsor Philly Materials Day at Drexel University; regional “You be the Chemist” Challenge; Materials Science & Engineering Graduate Student Symposium
  - Donations to the King of Prussia Fire Company; National Academy of Sciences, Chemical Heritage Foundation Innovation Day; Franklin Institute, American Red Cross
  - Volunteer with Habitat for Humanity
  - Economy League of Greater Philadelphia

Investment in health, environment and safety

- All employees are required to devote an hour+ per month toward safety awareness training
- All new employees participate in (5 module) SafeStart® training
- 30+ member emergency response team on site

About Arkema

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into three complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 80% of Group sales, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of €8.7 billion ($9.7 billion) in 2019, and operates in some 55 countries with 20,500 employees worldwide. www.arkema.com
